REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose, singly or in combination, a hose with a corrugated metal tube as claimed in detail in claim 1. Particularly, the limitation "an axial distance between the proximal end of the flattened end portion and the swaged point most proximate thereto being at a minimum 10mm." is not taught or fairly suggested by the prior art. As explained at least in paragraphs [0008]-[0010] and [0015]-[0028], this axial distance is critical to the performance of the device.

Note that the certified English translation of priority document JP 2002-319153 renders the effective filing date of the instant application as 10/31/2002, and thus eliminates Furata (US 6,866,302) as prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James M. Hewitt whose telephone number is 571-272-7084.
